

PROPOSAL

6. It is proposed to hire two unarmed local security guards (one at the front and one at the rear of the complex) on a 24 hour to guard the perimeter of the complex. The hiring of LSGs will be done in accordance with the guidelines available on the subject vide E Gram Q/BOS-III/815/34/2017 dated 19 Jul 17.

FINANCIAL EFFECT

7. As per the request for information, four quotations for the proposal have been received (attached). It is expected that the projected requirement will be met with an approximate expenditure of R\$ 30,968 (INR 636220 approx) per month (R\$ 371616/INR 7634347 approx per annum).

CONCLUSION

8. In view of the prevailing threat perception and local security scenario, cases of attempted intrusion, and the lack of any credible physical security infrastructure at the embassy complex including limited security personnel, hiring of LSGs for perimeter security is considered absolutely essential. Availability of guards at the perimeter of the complex will provide adequate deterrence and effective screening which will go a long way in precluding unauthorized intrusion or entry of undesirable elements into the complex.
